We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. For more space, use the back of this sheet.

My work with collage grew out of painting. Using Japanese papers, colors are layered to extend the original palette and to create depth and texture within the image. My images often come from the environment around me and are isolated sections that attempt to capture and understand the visual elements that spark a response in the viewer.

EXHIBITIONS cont.
